

Forklift Magnetic Sweeper - Vigilant Series

Magnet Mounted Forklift Magnetic Sweeper

With Quick Clean off Sleeve.

Needs/Problems for those wanting to use a forklift mounted magnetic sweeper

Vigilant Solutions

DEBRIS CAUSING FLAT TIRES

The flat tires on forklifts and other vehicles entering and exiting the property and the resulting costs, interruptions and delays are the problems that in most cases create the need for the use of a magnetic sweeper

- The Vigilant was designed specifically to pickup and remove debris such as; nails, screws, wire, discarded pieces from fabrication activities, bolts, nuts, pins, screw drivers, wrenches, etc

COST OF CONTINUOUS DEBRIS REMOVAL

Routine removal of metal debris to prevent flat tires represents another activity to be performed and extra labor costs if done separately.

Forklift owners want a solution that solves the flat tire problem without adding more permanently ongoing labor costs to do so.

- By mounting the Vigilant on forklifts, clean up of metal debris occurs as other normal activities are carried out. It results in negligible extra labor costs to solve the problem of flat tires.
- By eliminating the current and future labor costs of solving the flat tire problem, the payback period of investing in the Vigilant is greatly reduced.
- The Vigilant pays for itself very quickly.

Forklift Magnetic Sweeper - Vigilant Series

Needs/Problems for those wanting to use a forklift mounted magnetic sweeper

FORKLIFT FIT

Forklift owners and operators don't want to have to fabricate a custom installation for their forklift that damages the forklift in the process of installing the magnet.

They want a magnetic sweeper solution that is easy to install out of the box, that fits almost every type of forklift on the market, and that is compact in size to minimize the overall length it adds to the forklift in order to maintain forklift maneuverability.

Vigilant Solutions

- The Vigilant was designed to fit every brand and size of forklift on the market right out of the box.
- No need to weld on or drill into your forklift to mount the Vigilant.
- Designed to be completely concealed under your forklift where it cannot get damaged.
- The Vigilant easily mounts to the underside of your forklift with rare earth magnet quad pods designed to swivel to attach to any flat metal surface.
- Four quad pods for quick and heavy duty mounting to the underbody or chassis. Each quad pod (four magnets each) holds 52Lbs on clean steel. With four total quad pods (208lbs holding force) keeping the roughly 30lbs vigilant on your forklift there is plenty of holding power.
- Easy height adjustability (with self tightening cord cleats)
- The Vigilant is easy to install and setup on any forklift in just a few minutes.

Forklift Magnetic Sweeper - Vigilant Series

Needs/Problems for those wanting to use a forklift mounted magnetic sweeper

Vigilant Solutions

<p style="text-align: center;">EASE OF USE</p> <p>Forklift operators want an easy way of adjusting magnet sweeping height to fine tune the height for their job site.</p>	<ul style="list-style-type: none"> - Adjusting the magnet sweeping height on the Vigilant is easy with just a pull of the polyester paracord with self tightening cord cleat.
<p style="text-align: center;">PROFESSIONAL PERFORMANCE AND POWER</p> <p>Commercial and industrial Forklift owners and users want a magnetic sweeper that's going to work in tough dirty conditions to ensure removal of unwanted metal debris.</p> <p>We know industrial and commercial users don't want to buy something that only half works.</p>	<ul style="list-style-type: none"> - The Vigilant is a permanently charged C8 ceramic magnet, power will never decrease, ensuring years of use. - The Vigilant will pick up a 2 1/2" nail when the bottom of the magnet is 3 1/4" off the ground providing plenty of pickup power performance when operating on moving forklifts. To maximize performance we recommend setting sweeping height between 1 and 2 inches.
<p style="text-align: center;">DURABILITY</p> <p>Not only does it have to work, and be easy to use, but industrial and commercial forklift owners and users want a forklift magnet that will last as long as the forklift.</p>	<ul style="list-style-type: none"> - Permanently charged grade C8 magnet that will never need to be recharged. - Durable aluminum magnet housing construction and heavy duty PVC quick clean off sleeve resists abrasion if the ground is struck. - The Vigilant Fits "underneath" the forklift so nothing sticks out to get damaged. - Hangs from polyester paracords allowing the Vigilant to swing out of the way if it hits anything on the ground.

Product Name

Vigilant - Forklift Magnetic Sweeper

Sweeper Width

Vigilant 36" or 42"

Magnet Dimensions Inside Housing (unspaced)

Vigilant - 36 - 2.5" W x 1" H x 36" L

Vigilant - 42 - 2.5" W x 1" H x 42" L

Total Product Weight

Vigilant 36 - 26.4 lbs

Vigilant 42 - 31.3 lbs

Total Shipping Weight

Vigilant 36 - 29.7 lbs

Vigilant 42 - 33.5 lbs

Cleaning Method

Included quick clean off sleeve.

Sweeping Height Adjustability

Yes, by adjusting polyester paracord with self tightening cord cleat.

Mounting Type

Magnet mounted

Mounting Point

Under forklift or from other steel surface.

Magnet Type

Permanently Charged C8 Magnets.
Rare earth pot magnets.

Forklift Fit

Designed to fit all forklifts.

Maximum Lifting Height

(measures in 2 1/2" 8 penny nails)

3.25" inches

Construction

- Polyester paracord
- Aluminum housing
- Nylon & PVC injection molder parts
