Roofer Needs/Problems

Ecko Solutions

<p style="text-align: center;">Durability</p> <p>Equipment needs to be durable and require no maintenance.</p>	<ul style="list-style-type: none"> • Heavy duty construction using all-weather aluminum requires no maintenance. • Nylon flange bushings on all moving parts for years of long life. • Double attachments on all 3 lifting points.
<p style="text-align: center;">Turf Compatibility</p> <p>Sweeper needs to be height adjustable so that it can be used in different turf conditions and still hold onto nails.</p>	<ul style="list-style-type: none"> • 5 height adjustability settings from 1/2” to 2 1/2” in 1/2” increments using simple bolt adjustment. • “Wrap Around” design that won’t let debris go even when debris is pushed back on bottom of sweeper by grass or dirt. Debris simply “wraps around” and snaps on back of sweeper.
<p style="text-align: center;">Light Weight</p> <p>Some roofers want a light tool that is easy to load and unload to and from work vehicles.</p>	<ul style="list-style-type: none"> • Ecko is designed to be as light as possible by keeping magnet size smaller and construction made from aluminum and/or plastic parts.
