

534

ATA® ActivGrip® 534 Gloves with Nitrile MicroFinish®

APPLICATIONS

Automotive
Glass Handling
Metal Handling
Construction
Pulp and Paper
Appliance Manufacturing

FEATURES

Slick surfaces and sharp edges have met their match! Get significant cut protection and unsurpassed grip performance from the innovators of ATA® and ActivGrip™ 534 technologies. Fine gauge ATA® ActivGrip™ 534 gloves fit like a second skin, increasing dexterity and reducing hand fatigue. They pack a powerful ANSI A4 cut level because they're made with ATA® Advanced Technology Armor featuring Twaron®. The nitrile MicroFinish® coating grips dry, wet and even oily surfaces. Its microscopic suction cups create a vacuum, dispersing oil and other fluids so the full gripping surface makes clean contact. New ATA 534 gloves are machine washable. The Sanitized® protective finish provides lasting freshness.
