

CLAW COVER® MS-1097

Comfort plus Heavy Duty Cut Protection

TOP ARM FINISHING: ALLIGATOR CLIP

APPLICATIONS

Food Processing
Direct Food Contact
High Cut Hazards

FEATURES

Count on this heavy duty Claw Cover MS-1097 sleeve to protect against cuts, slashes and abrasions in the kitchen. ANSI A6 cut resistance means it provides good protection against high level cut hazards. Plus it's extremely comfortable to wear, thanks to the steel-free design that puts a soft surface against the skin. An integrated alligator clip at the top of the sleeve helps to keep it in position on the arm regardless of physical activity. Designed according to 21 CFR standards, the MS-1097 sleeve is approved for direct food contact. Machine washable for repeat usage. Made in the USA.
