

Product INFORMATION

SP-1257

125mm ANGLE GRINDER

Features:

- Safety throttle lever to prevent accidental start ups.
- Safety disc cover for protection.
- Lever throttle for feathering control.
- Dead handle mounts on either side for right or left hand operation.
- Hardened and ground spiral bevel gears for low vibration.

SPINDLE : M14 × 2.0

SAFETY GOVERNOR MECHANISM

If a grinder is operated at excessive speed the grinding wheel will explode and cause personal or property damage.

At SP AIR for safe operation all of our grinders with the SP mark are manufactured with an automatic governor to prevent excessive RPM.
