FDL

Shown with FDL-FA

Note: Drum rim must be within 1" (25.4 mm) of the top of the drum. Content weight must not exceed the drum manufacturers' packing limit. Drums must be closed with lids properly sealed. Not for lifting over 10" (254 mm) high.

### SKID DOLLY

Capable of handling up to 1,200 pounds, this dolly can be used with all drums/boxes on skids or pallets measuring 27 inches square or smaller. Four solid Textite roller bearing wheels make transporting a drum simple. Can be assembled in a lip up or lip down configuration depending on customer needs. Call customer service for larger pallet sizes.
